

Note: There are other groundwater plumes in this area not part of the IRP and therefore not depicted on the map. For further information, please call Doug Karson at (508) 968-4678 ext 2.

FS-12 Treatment Facility

These extraction wells are being used for plumes under the Impact Area Groundwater Study Program.

**Legend**

- FS-12 Plume Boundary = Concentrations exceeding drinking water standards or Massachusetts Maximum Contaminant Level (MMCL), dashed where inferred
- ◆ Represents an exceedance of ethylene dibromide (1,2-dibromoethane)(EDB) and/or benzene. (EDB MMCL = 0.02 µg/L) (Benzene MCL = 5 µg/L)
- Treatment Facility
- ◆ Extraction Well (Operational)
- ◆ Extraction Well (Non-Operational)
- ◆ Reinjection Well (Operational)
- ◆ Reinjection Well (Non-Operational)
- Treatment System Piping
- Massachusetts Military Reservation Boundary
