

Legend

Data Source: AFCEE, June 2007, AFCEE-MMR Data Warehouse

- FS-1 Plume Boundary = Concentrations exceeding drinking water standards or Massachusetts Maximum Contaminant Level (MMCL). Represents an exceedance of ethylene dibromide (1,2-dibromoethane)(EDB) (EDB MMCL = 0.02 µg/L)
- Massachusetts Military Reservation Boundary
- Town Boundary
- Outflow Bubbler
- ◆ Extraction Well
- Treatment Facility
- Landfill/Source Area
- Treatment System Piping
- Infiltration Trench
- Bogs

Note: µg/L = micrograms per liter and is a measure of concentration. It is approximately equivalent to parts per billion (ppb).
